

Communication

Date	15 July 2026
Team ID	SWTID-2026-3798
Project Name	Rising Waters-Flood Prediction System
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool Participants Purpose
1	Team Standup	Daily	Channel/Tool:WhatsApp Group Participants:All team members(Sathwik,Afshan,Nehasini,Yagna) Purpose:Quick daily sync on tasks completed and blockers
2	Progress Update	Weekly	Channel/Tool:WhatsApp Group+GitHub Commits Participants:All team members Purpose:Review weekly progress against epics,update task status
3	Issue / Bug Discussion		Channel/Tool:GitHub Issues+WhatsApp Participants:Team members involved in the affected module Purpose:Report,discuss,and resolve bugs or blockers during development
4	Stakeholder Review	Bi-Weekly	Channel/Tool:Google Meet Participants:Team members+Mentor (once assigned) Purpose:present progress,gather feedback,align on next steps
5	Final Demo Rehearsal	Once	Channel/Tool:Google Meet Participants:All team members Purpose:Practice the final project demo before submission
6	Code Review	Before each merge	Channel/Tool:GitHub Pull Requests Participants:Team Lead+contributing member Purpose:Ensure code quality before merging to main branch

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
------	-----------------	---------------------------

1	Coordinating Schedules across team members for daily standups due to differing class timings	Shifted standups to WhatsApp async updates instead of live calls ,with a fixed daily check-in time
2	Merge conflicts on GitHub When multiple members edited the same notebook/model files	Assigned separate branches per epic and reviewed pull requests before merging to main
3	Delay in feedback from stakeholder/mentor review since no mentor was assigned initially	Team self-reviewed progress internally and used bi-weekly peer review sessions to stay on track
